

# Junction box

## Features

Stainless steel construction

Optional 4, 6, 8, 10 in 1

Accuracy 0.1%F.S.

Waterproof cover

Optional 4-20mA, 0-5V, Modbus RS485

High stability

## DESCRIPTION

ZMJX is a junction box made of stainless steel. Customers can choose 4, 6, 8 or 10 in 1. The output signal can be selected from analog output(4-20mA, 0-5V, 0-10V) and Modbus RS485. Industrial-grade sealed joints enable IP67 protection. The internal circuit can regulate the signal of the sensor.
